

High Performance Studwall Membrane

Celweb™ is designed to be used in conjunction with Celbar WallSpray®. Celweb™ provides a backing for wall assemblies in which the drywall has not yet been constructed, allowing for the application of Celbar WallSpray®. **Celweb® is ideal for knee walls, cathedral ceilings and sound walls.**

Celweb™ speeds installation and eliminates the downtime of waiting for drywall contractors. Celweb™ also prevents interruption of drywall contractors and allows Celbar contractors to work their own schedule.

Celweb™ is available in 6 convenient sizes:

- 4' x 750'
- 4' x 1,500'
- 8' x 375'
- 8' x 750'
- 9' x 375'
- 10' x 375'

For more information on **Celweb™** or **Celbar® High Performance Insulation** call **800-444-1252** or visit our website!
